

THE 51st CLINICAL APHASIOLOGY CONFERENCE

Tuesday, May 17, 2022 – Saturday, May 21, 2022
Blockade Runner Beach Resort, Wrightsville Beach, NC

CALL FOR PAPERS

The annual Clinical Aphasiology Conference (CAC) provides a forum for clinicians and researchers engaged in the study and clinical management of persons with acquired neurologic language disorders to present their recent research and engage in extensive discussions with colleagues. To develop an informal atmosphere conducive to the free exchange of ideas, CAC attendance is limited to approximately 120 people. The 2022 Conference Chairperson is William Hula and the Program Chairperson is Michael Walsh Dickey.

To attend the 2022 CAC, you must submit a summary of an original paper, poster, or round table discussion no later than Monday **January 17, 2022 at 11:59pm PST**.

Please note: Only one author from each accepted proposal will be invited to attend the conference. As space permits, one additional author from accepted proposals and first authors of proposals that are not accepted for presentation may be invited to attend. A number of competitive student fellowships are available to students who have earned authorship on a paper submitted to CAC; visit <https://clinicalaphasiologyconference.org/students-at-cac/nidcd-student-fellowship/> for more information.
